### REACH ASSESSMENT OFFICER IN CENTRAL AFRICAN REPUBLIC

(Reference: 19/CAR/A001)

#### BACKGROUND ON IMPACT AND REACH

REACH was born in 2010 as a joint initiative of two International NGOs ([IMPACT Initiatives](#) and [ACTED](#)) and the United Nations Operational Satellite Applications Programme ([UNOSAT](#)). REACH's **purpose** is to promote and facilitate the development of information products that enhance the humanitarian community's decision making and planning capacity for emergency, reconstruction and development contexts. REACH facilitates information management for aid actors through three complementary services: (a) need and situation assessments facilitated by REACH teams; (b) situation analysis using satellite imagery; (c) provision of related database and (web)-mapping facilities and expertise.

IMPACT Initiatives is a humanitarian NGO, based in Geneva, Switzerland. The organisation manages several initiatives, including the REACH Initiative. The IMPACT team comprises specialists in data collection, management and analysis and GIS. IMPACT was launched at the initiative of ACTED, an international NGO whose headquarter is based in Paris and is present in thirty countries. The two organizations have a strong complementarity formalized in a global partnership, enabling IMPACT to benefit from ACTED's operational support on its fields of intervention.

**We are currently looking for a REACH Assessment Officer to support our REACH team in CAR.**

**Department:** REACH  
**Position:** REACH Assessment Officer  
**Contract duration:** 6 months  
**Location:** Bangui, Central African Republic  
**Starting Date:** ASAP

#### COUNTRY PROFILE

Multiple displacement has taken place in Central African Republic (CAR) since 2005 as a result of conflict and crime. After the 2007 Libreville peace agreement, the security situation in the north of the country began to improve, prompting the spontaneous return of Internally Displaced Persons (IDPs) to their areas of origin. However, the political-military crisis in the capital, Bangui, in March 2013 aggravated the already precarious humanitarian situation and resulted in a significant increase in displacement. The international community declared the situation a 'level 3' crisis on 5 December 2013 i.e. the most severe level of a humanitarian emergency. Since December 2013, nearly 900,000 people have fled their homes. As of October 2018, an estimated 642,850 people are internally displaced, and an additional 573,250 people have found refuge mostly in 4 asylum countries: Cameroun, Chad, DRC and Congo, as of September 2018.
