

JOB DESCRIPTION

AGORA ASSESSMENT OFFICER IN UKRAINE

(Reference: 19/UKR/AO01)

BACKGROUND ON IMPACT AND REACH

REACH was born in 2010 as a joint initiative of two International NGOs ([IMPACT Initiatives](#) and [ACTED](#)) and the United Nations Operational Satellite Applications Programme ([UNOSAT](#)). REACH's purpose is to promote and facilitate the development of information products that enhance the humanitarian community's decision making and planning capacity for emergency, reconstruction and development contexts. REACH facilitates information management for aid actors through three complementary services: (a) need and situation assessments facilitated by REACH teams; (b) situation analysis using satellite imagery; (c) provision of related database and (web)-mapping facilities and expertise.

IMPACT Initiatives is a humanitarian NGO, based in Geneva, Switzerland. The organization manages several initiatives, including the REACH Initiative. The IMPACT team comprises specialists in data collection, management and analysis and GIS. IMPACT was launched at the initiative of ACTED, an international NGO whose headquarter is based in Paris and is present in thirty countries. The two organizations have a strong complementarity formalized in a global partnership, enabling IMPACT to benefit from ACTED's operational support on its fields of intervention.

We are currently looking for an Assessment Officer to support our Ukraine team.

Department: AGORA
Position: **AGORA Assessment Officer**
Location: Slavyansk, with frequent travels to Kiev, Sievierodonetsk and Mariupol
Contract duration: 6 months (renewable)
Start date: February 2020

COUNTRY PROFILE

In May 2019, the Ukraine conflict opposing the Ukrainian Government and non-state armed groups in the Donetsk and Luhansk regions entered its fifth year. The 427-km contact line separating the warring factions continue to experience hundreds of daily ceasefire violations often provoking both military and civilian casualties. As of January 2018, the conflict has killed more than 13,000 people. According to the Ministry of Social Policy more than 1.4 million people were displaced because of the war and have resettled away from conflict areas in Ukraine and non-government-controlled areas, in Russia and other neighbouring countries. The crisis in Ukraine is currently marked by regular spikes in fighting in strategic high-density urban areas in

Avdiivka, Popasna, Stanytsia Luhanska and Mariupol. There are also ongoing challenges facing IDPs after five years of displacement and the limited access to the large population residing in non-government areas.

In 2017 in partnership with the major aid actors, IMPACT started the process of implementing an area-based assessment understanding of the specific challenges facing settlements close to the contact line (within a 5km buffer). This was the first area-based assessment (ABA) implemented in Ukraine and paved the way for the implementation of Capacity and Vulnerability Assessments (CVA), which capitalized on the methodology of the ABA and increased the geographical scope of the analysis to all the raions (administrative unit level 2) and municipalities along the line of contact. In 2018, IMPACT was able to implement 8 such analysis available online. In 2018, IMPACT plans to scale up the CVA approach in areas further away from the line of contact to inform recovery programmes in the Government Controlled Areas (GCA) of Donetsk and Luhansk oblast.

In 2020 IMPACT in Ukraine will continue supporting both humanitarian and development actors in using evidence to inform aid planning. The humanitarian portfolio will focus on the implementation of multi-sector needs assessment (MSNA) in close partnership with the humanitarian coordination architecture (OCHA, and the clusters). The development portfolio will have an AGORA and IMPACT component. AGORA will focus on supporting the United Nations Recovery and Peacebuilding Program (UNRPP) with local level capacity and vulnerability assessments to inform localized recovery and stabilization program. IMPACT will continue supporting a variety of aid actors through thematic assessments.

POSITION PROFILE

We currently have an open position for an assessment officer in Ukraine, seeking an established professional with knowledge and technical expertise in implementing multi-stakeholder assessments in a development context. The ideal candidate will be eager to work in a dynamic organization with opportunities to build coordination skills whilst overseeing multi-sector assessments which inform the humanitarian needs overview and humanitarian response plan.

FUNCTIONS
