

HSM RESEARCH MANAGER

(Reference: 20/SYR/RM01)

BACKGROUND ON IMPACT AND REACH

REACH was born in 2010 as a joint initiative of two International NGOs ([IMPACT Initiatives](#) and [ACTED](#)) and the United Nations Institute for Training and Research (UNITAR) Operational Satellite Applications Programme ([UNOSAT](#)). REACH's purpose is to promote and facilitate the development of information products that enhance the humanitarian community's decision making and planning capacity for emergency, reconstruction and development contexts, supporting and working within the framework of the humanitarian reform process. REACH facilitates information management for aid actors through three complementary services: (a) need and situation assessments facilitated by REACH teams; (b) situation analysis using satellite imagery; (c) provision of related database and (web)-mapping facilities and expertise.

IMPACT Initiatives is a humanitarian NGO, based in Geneva, Switzerland. The organisation manages several initiatives, including the REACH Initiative. The IMPACT team comprises specialists in data collection, management and analysis, GIS and remote-sensing. IMPACT was launched at the initiative of ACTED, an international NGO whose headquarter is based in Paris and is present in thirty countries. The two organizations have a strong complementarity formalized in a global partnership, which allows particularly IMPACT to benefit from ACTED's operational support on its fields of intervention.

ACTED is a French humanitarian NGO, founded in 1993, which supports vulnerable populations, affected by humanitarian crises worldwide. ACTED provides continued support to vulnerable communities by ensuring the sustainability of post-crisis interventions and engaging long-term challenges facing our target populations, in order to break the poverty cycle, foster development and reduce vulnerability to disasters. Their interventions seek to cover the multiple aspects of humanitarian and development crises through a multidisciplinary approach which is both global and local, and adapted to each context. Their 3,300 staff is committed in to responding to emergencies worldwide, to supporting recovery and rehabilitation, towards sustainable development.

We are currently looking for a HSM Research Manager to support our team in Syria.

Supervisor: REACH WoS Head of Programmes
Title: Research Manager
Unit: Humanitarian Situation Monitoring (HSM) Unit
Location: Amman, Jordan
Contract duration: 1 year
Start date: ASAP

COUNTRY PROFILE

Into its tenth year of conflict, conditions in Syria remain highly volatile and marked by intense violence and limited humanitarian access. The scale, complexity, and severity of humanitarian needs in Syria extends the necessity for up to date, timely, and accurate information. Evidence-based planning and programming remains paramount to ensure that the response adequately meets the needs of the most vulnerable people and is

tailored to different realities across communities and over time. However, informing operational and strategic planning remains highly challenging, as accessibility and security issues impede systematic data collection.

A lack of predictable and consistent data undermines the ability of humanitarian actors to review their approach in light of the dynamic context. REACH has been conducting assessments on the humanitarian situation in Syria since 2013 and has over the years grown significantly both in size and in influence as an actor in the Syria response. REACH works in opposition controlled parts of Syria and coordinates closely with OCHA, nearly all clusters, key working groups (IM and technical) within the Syria coordination system, and various NGO fora in order to identify, address, and raise awareness of key information gaps, as well as to uphold the quality of data used to inform the response.

Through these engagements, REACH has identified that the following key challenges remain: (1) the lack of a needs tracking system that brings together and shares timely and regular information on changes in needs from a variety of sources; (2) the ability to conduct coordinated large scale data collection on a more regular basis – particularly critical in the highly volatile context, and during key humanitarian milestones such as the HNO; (3) the lack information from harder to reach areas with some of the most acute needs, such as Menbij and Afrin in northwest Syria and Deir-ez-Zor governorate (4) lack of ability to quickly mobilise data collection in areas experiencing sudden escalations in conflict, due to accessibility, operational and security constraints; (5) the lack of more granular and detailed information on needs and response capacity on specific newly accessible geographic areas, such as Menbij.

Broadly speaking, REACH Syria implements assessments within four key streams:

- *Monitoring of the humanitarian situation in Syria*, through monthly multi-sectoral assessments covering over 1,600 communities in Syria and market monitoring to track prices of goods as per the survival minimum expenditure basket (SMEB).
- *Displacement tracking*, through tracking the movement of IDPs and Returnees down to a 24-48 hour-basis, as well as monitoring the humanitarian situation inside IDP camps and informal settlements.
- Ad hoc rapid assessments in times of sudden escalations in conflict or natural disasters through tracking emergency needs for affected populations.
- *Technical support to clusters*, for example in the form of coordination and implementation of sector and multisector assessments to inform the HNO, production of thematic assessments, presentations of findings, and capacity building.

For an example of REACH Syria information products, please see below:

- [HSOS Northwest Syria Regional Factsheet, August 2020](#)
- [HSOS Northeast Syria Regional Factsheet, July 2020](#)

POSITION PROFILE

Under the supervision of the Country Coordinator (CC), the Research Manager is responsible for the management of the Humanitarian Situation Monitoring (HSM) portfolio, including all of its staff and research cycles. The Research manager is directly accountable to the Country Coordinator for strategic relevance, efficient use of resources, HQ alignment, and quality control within their Unit, including implementation, resource mobilization and management, partnership framework, dissemination and evaluation of all activities conducted within his/her Unit. He/she is part of the Senior Management Team and plays a key role in the development and implementation of REACH strategy in Syria.

The Humanitarian Situation Monitoring Unit is primarily responsible for regular multi-sectoral research cycles to provide situation overviews of the humanitarian needs of households and communities in northeast and northwest Syria. The HSM Research Manager primarily oversees 2 different teams comprising of Assessment and GIS Officers: The Emergency Response team and the Humanitarian Situation Overview for Syria (HSOS) team. On top of regular outputs within each team, the Research Manager will oversee the development of ad hoc thematic or geographic focused assessments relevant the needs of the wider humanitarian response.

In his/her mission, the Research Manager will be hosted by ACTED and will fall under the direct responsibility and management of ACTED's Country Director and his/her delegates for all Administrative, Security, Logistics and Finance issues. S/he will therefore fully abide to ACTED's Security, HR, Administration and Logistics rules and regulations.

RESPONSIBILITIES

In coordination with the Country Coordinator and Deputy Country Coordinator, within his/her Unit, the Research Manager is responsible for:

- Strategic development, identification and implementation of impactful/relevant programmes
- Ensuring compliance to increasing research standards and applying research quality control and alignment with global Research department
- Ensuring efficient and effective management of resources (staff, operational budget)
- Ensuring compliance to processes including:
 - Grants management
 - Financial management
 - Admin management – leave, attendance and exit form follow up
 - Asset follow up
- Management and development of staff in line with the global IMPACT training guidelines

In support to the Country Coordinator and Deputy Country Coordinator, the Research Manager will actively contribute to the development of the REACH strategy of his/her Unit. In particular, within his/her Unit, s/he will support on:

1. Strategy Development and Implementation

- Strategic Planning and Leadership:
 - Developing short- and long-term goals for Unit, and designing strategies / organising resources to achieve set objectives; locked down in Unit Strategy ToRs to be reviewed by CC/HQ.
 - Ensuring relevance and impact of implemented programmes by linking RCs to context and stakeholders
 - Identification of key information gaps and need for assessments, in line with humanitarian priorities and key event/milestones that should be informed
 - Staying abreast of key developments in the humanitarian sector
 - Engagement with IMPACT HQ in global level strategic priorities
- Strategic External Engagement
 - Senior external engagement and output dissemination with key stakeholders, as well as coordination of external engagement by all Unit staff
 - Development strategic partnerships with key humanitarian stakeholders and decision makers

- Communications and consultation with CC and other SMT members, including sharing relevant information and ensuring efficient and productive links with SMT
- Ensure coordinated and positive interactions between Unit and ACTED staff

- Project Development:
 - Support the IMPACT Country Coordinator and WoS Head of Programmes in external engagement in relation to REACH/IMPACT strategy or (when requested and with focal point) to fundraising and grants management.
 - Develop proposals, concept notes, and budget in close coordination with the IMPACT Country Coordinator and WoS Head of Programmes, in line with the Unit and Country Strategies.

- General Program Implementation:
 - Ensure that all IMPACT programs contribute to supporting better aid planning and are aligned with IMPACT global, country, and Unit strategies;
 - Ensure that all programs are planned in line with relevant Unit and project objectives and with IMPACT's research cycle and other relevant guidelines;
 - Supervise all stages of program implementation, receiving regular updates from team members, providing inputs when required, and conducting field visits to program sites for monitoring, quality control and program staff mentoring and coaching;
 - Maintain regular link with ACTED (as relevant) to facilitate the provision of logistic, administrative and security support to facilitate program implementation, as well as ensuring that IMPACT teams comply to ACTED's security and other relevant FLAT regulations during program implementation;
 - Ensure the required level of coordination with partners in program planning and implementation;
 - Ensure that synergies are established and implemented between various Research Cycles within Unit in country, and link with other IMPACT Units or countries when relevant;
 - Keep track of progress and delays of all program implementation. Ensure that delays or identified problems for specific programs are reported to CC and HQ in writing and orally in a timely manner.

2. Project and Staff Management

- Project and Grants Management:
 - Management of relevant all Project / Grant cycles within his/her Unit, maintaining communication with HQ Grants Management department (in coordination with PD Officer and CC)
 - Follow up on internal project cycle management processes (Kick-off/end meetings, Project Factsheets, etc), as well as external reporting to donors
 - Monitor output achievement, cash burn rates and ensure a time completion of projects through review of BFUs, Project factsheet, and project reports (in conjunction with PD and finance staff);
 - Ensure that contractual obligations are met in terms of deliverables as well as narrative and financial reporting requirements, in close coordination with CC, PD Officer, HQ Grants Management and (as relevant) with ACTED PD and finance departments;
 - Provide ad-hoc support to project implementation through trouble shooting and eliminating blocking points;

- Finance Management
 - Control project budgets within Units to avoid under/over spending, in link with REACH Finance, IMPACT HQ finance and (as relevant) ACTED finance;
 - Ensure accurate and timely financial reporting, in link with REACH Finance, IMPACT HQ finance and (as relevant) ACTED finance;
 - Ensure accurate budget expenditure tracking and forecasting, in link with REACH Finance, IMPACT HQ Finance (as relevant) with ACTED finance;
- Asset Management
 - Ensure proper asset management;
 - Ensure sufficient and reliable means of communication;
 - Regularly link with and report to IMPACT HQ hub and (as relevant) ACTED logistics and IT departments;
- Staff Management:
 - Line management of Unit Staff – including:
 - a. Leading on- and ensuring shared team values
 - b. Delegation of responsibilities to- and among team members
 - c. Monitoring and ensuring individual and team performance to ensure goal achievement, including regular meetings to assess progress in all research cycles and review of work plans
 - d. Conducting appraisals and provide regular and constructive feedback
 - e. Ensuring staff development and access to global IMPACT training opportunities
 - Functional management of field staff who work on RCs within Unit
 - In coordination with the Country Coordinator / IMPACT Executive Director, conduct induction for new staff members, including training in basic technical competencies for assessment design, implementation and analysis;
 - Support to the IMPACT Country Coordinator in the development and implementation of capacity training plans for REACH assessment and field team member;

3. Oversight Research Cycle Management

The Research Manager is the main focal point for the HQ Research Department and will be accountable for the quality of all research conducted, and outputs produced, within his/her Unit. The RM will have the following responsibilities regarding research cycle management.

- Assessment Preparation and Planning:

Alongside relevant focal points of each team or research cycle:

- Ensure relevant stakeholders and partners are engaged in assessment design to promote operationalization of research findings according to contextual needs / information gaps.
- Ensuring that all assessments are planned in line with relevant project and program objectives and with REACH's research cycle and other relevant guidelines;
- Ensure that required secondary data analysis has been conducted in preparation of an assessment;
- For each assessment, review ToRs before they are sent to Geneva for validation and ensure that TORs are validated by HQ before any data collection begins;
- Ensure that ToRs are understood and used by assessment staff and stakeholders, and updated as required;

- Keep track of progress and delays of all assigned assessment throughout the research cycle. Ensure that delays or identified challenges for specific assessments are reported in writing and orally in a timely manner;

- Data collection and management

Alongside relevant focal points of each team or research cycle:

- Ensure that required enumerators are identified and trained for primary data collection;
- Monitor data collection, ensuring its correct implementation in line with agreed TORs;
- Ensure that the Deputy Country Director is alerted to any issues that prevents full implementation of the methodology in line with the agreed TORs; ensure that all changes to the methodology are documented throughout implementation;
- Ensure that data is revised and cleaned, and that all revisions are recorded;
- Ensure that meaningful techniques are used to analyze the data collected;
- Ensure that data and its analysis are validated by IMPACT HQ before product drafting stage;
- Ensure that data and its analysis do not contain personal information and are validated by IMPACT HQ before sharing to external parties.

- Product drafting

- Oversight of focal points and other assessment staff throughout the product drafting process;
- Maintain regular communication with IMPACT HQ on progress and deadlines for written products;
- Ensure the drafting of timely and accurate assessment outputs (i.e. reports, factsheets, etc.), which comply with IMPACT's guidelines and quality standards;
- Review all products written by Assessment Officers before they are sent to the Country Coordinator or IMPACT HQ for validation;
- Ensure that all written products are validated by IMPACT HQ before external release.

- Research-related external engagement, product dissemination and evaluation

- In coordination with the Country Coordinator and Deputy Country Coordinator, ensure that relevant partners are consulted and involved at all stages of research cycle: the preparation of the assessment; data collection; data analysis; review of research products; product dissemination; lessons learnt;
- Ensure that partner engagement is documented;
- Ensure that external communications with partners and key stakeholders, including relevant UN agencies, local and national government, and NGOs has been conducted and documented as appropriate for each Research Cycle;
- Under the direction of the Country Coordinator, engage in the dissemination of research products, including through articles, IMPACT social media contents, targeted e-mails, presentations, meetings, etc, in line with IMPACT Dissemination and External Communication Guidelines and Research ToRs;
- Under supervision of IMPACT HQ, ensure that research products are uploaded in relevant data portals, as specified in Research ToRs;
- Ensure that lessons learned are gathered and documented at the end of each research cycle;
- Support the PD Officer and Deputy Country Director to conduct monitoring and evaluation as specified in the research ToRs and in line with IMPACT Guidelines.

- Monitoring and Evaluation
 - Ensure the development and application of a M&E system/plan for each program within Unit, in line with IMPACT's M&E guidelines;
 - Ensure learning by the Unit from relevant best practice internally and externally both nationally and globally and make learning available for other programs.

CONFIDENTIALITY AND DATA PROTECTION

The Research Manager will maintain the strictest confidentiality on all data collected and related processes. He/she will actively take measures to prevent the unauthorized sharing of any information and data belonging to IMPACT and its partners, or collected during his/her assignment with IMPACT.

REQUIREMENTS

- Excellent academic qualifications, including a Master degree in relevant discipline;
- At least 3 years of relevant working experience in humanitarian settings such as research, evaluation, assessments and programmes;
- Excellent project management skills;
- Excellent external engagement skills
- Excellent team management skills;
- Excellent analytical skills;
- Excellent communication and drafting skills for effective reporting;
- Field/humanitarian experiences needed, in monitoring and evaluation, NGOs, or other similar relevant sector;
- Ability to operate in a cross-cultural environment requiring flexibility;
- Understanding of the global and country level cluster approach, an asset;
- Prior knowledge of the Syrian context, an asset;
- Fluency in English required; Arabic or Kurdish an asset;
- Ability to operate Microsoft Word, Excel and Project Management Software;
- Knowledge of SPSS and/or R, STATA or other statistical analysis software are an advantage;
- Ability to multitask with tight deadlines, on numerous research cycles;
- Ability to work independently and manage people remotely.
