

REACH ASSESSMENT OFFICER CASH, MARKETS & LIVELIHOODS

(Reference: 21/SYR/AO01)

BACKGROUND ON IMPACT AND REACH

REACH was born in 2010 as a joint initiative of two International NGOs ([IMPACT Initiatives](#) and [ACTED](#)) and the United Nations Operational Satellite Applications Programme ([UNOSAT](#)). REACH's **purpose** is to promote and facilitate the development of information products that enhance the humanitarian community's decision making and planning capacity for emergency, reconstruction and development contexts. REACH facilitates information management for aid actors through three complementary services: (a) need and situation assessments facilitated by REACH teams; (b) situation analysis using satellite imagery; (c) provision of related database and (web)-mapping facilities and expertise.

IMPACT Initiatives is a humanitarian NGO, based in Geneva, Switzerland. The organisation manages several initiatives, including the REACH Initiative. The IMPACT team comprises specialists in data collection, management and analysis and GIS. IMPACT was launched at the initiative of ACTED, an international NGO whose headquarter is based in Paris and is present in thirty countries. The two organizations have a strong complementarity formalized in a global partnership, enabling IMPACT to benefit from ACTED's operational support on its fields of intervention.

We are currently looking for an Assessment Officer to support our Cash, Markets & Livelihoods unit.

Department: REACH
Position: Assessment Officer
Contract duration: 6 months
Location: Amman, Jordan
Starting Date: ASAP

COUNTRY PROFILE

Into its ninth year of conflict, conditions in Syria remain highly volatile and marked by intense violence and limited humanitarian access. The scale, complexity, and severity of humanitarian needs in Syria extends the necessity for up to date, timely, and accurate information. Evidence-based planning and programming remains paramount to ensure that the response adequately meets the needs of the most vulnerable people and is tailored to different realities across communities and over time. However, informing operational and strategic planning remains highly challenging, as accessibility and security issues impede systematic data collection. A lack of predictable and consistent data undermines the ability of humanitarian actors to review their approach in light of the dynamic context. REACH has been conducting assessments on the humanitarian situation in Syria since 2013 and has over the years grown significantly both in size and in influence as an actor in the Syria response. REACH works in opposition-controlled parts of Syria and coordinates closely with OCHA,

nearly all clusters, key working groups (IM and technical) within the Syria coordination system, and various NGO fora in order to identify, address, and raise awareness of key information gaps, as well as to uphold the quality of data used to inform the response.

Through these engagements, REACH has identified that the following key challenges remain:

1. the lack of a needs tracking system that brings together and shares timely and regular information on changes in needs from a variety of sources;
2. the ability to conduct coordinated large scale data collection on a more regular basis – particularly critical in the highly volatile context, and during key humanitarian milestones such as the HNO;
3. the lack information from harder to reach areas with some of the most acute needs;
4. lack of ability to quickly mobilise data collection in areas experiencing sudden escalations in conflict, due to accessibility, operational and security constraints;
5. the lack of more granular and detailed information on needs and response capacity on specific newly accessible geographic areas. Broadly speaking,

REACH Syria implements assessments within four key streams:

- Monitoring of the humanitarian situation in Syria, through monthly assessments covering over 1,600 communities in Syria, market monitoring to track prices of goods as per the survival minimum expenditure basket (SMEB), and ad hoc rapid assessments in times of sudden escalations in conflict or natural disasters.
- Displacement tracking, through tracking the movement of IDPs and Returnees down to a 24-48 hour basis, as well as monitoring the humanitarian situation inside IDP camps and informal settlements.
- Area-Based Assessments to support humanitarian actors in the coordination to identify key response gaps by comparing humanitarian needs data with response data, in a set locality – often one that has recently become accessible and/or that is recovering for instance from besiegement.
- Technical support to clusters, for example in the form of coordination and implementation of sector and multisector assessments to inform the HNO, production of thematic assessments, presentations of findings, and capacity building.

POSITION PROFILE

REACH Syria is seeking an Assessment Officer to provide support to the Cash, Markets & Livelihoods unit. In this role, the Assessment Officer will be responsible for leading part of our thematic market assessments and/or third-party monitoring projects, technically supporting other ongoing and ad-hoc assessments across the whole unit, providing creative input in combining existing data into more detailed economic analyses, and responding to ad-hoc analysis requests from external partners. The Assessment Officer will work closely with REACH's partners, other cash & market assessment focal points, and the Cash Working Groups (CWG) and Food Security and Livelihoods (FSL) coordination bodies.

FUNCTIONS

Under the line management of the Cash, Markets & Livelihoods Research Manager, or a Senior Assessment Officer in the unit, the Assessment Officer is responsible for the implementation of IMPACT's research cycles in Syria, including the preparation, data collection, analysis, drafting, dissemination and evaluation stages. Throughout research cycles, the Assessment Officer engages with partners to promote their participation and maximize their impact. He/she also ensures an efficient and transparent use of resources required for project implementation. This can include the direct supervision of assessment teams.

In his/her mission, the Assessment Officer will be hosted by IMPACT's global partner ACTED and will fall under the direct responsibility and management of ACTED's Country Director and his/her delegates for all Administrative, Security, and relevant Logistics and Finance issues. S/he will therefore fully abide to ACTED's Security, Administration, and relevant HR, Logistics and Finance rules and regulations.

RESPONSIBILITIES

The Assessment Officer is responsible for overseeing the planning, implementation and follow up of research cycles to which s/he is assigned, in close coordination with other team members and with relevant external partners. In doing so, the Assessment Officer will ensure an effective management of related projects and resources.

More specifically the Assessment Officer is responsible for the following:

RESEARCH PLANNING:

- Anticipate knowledge gaps prior to the execution of a Research Cycle;
- Ensure that required secondary data review and/or analysis has been conducted in preparation of an assessment;
- Ensure that all research cycles are planned in line with the country strategy, relevant research and project objectives and with IMPACT's research cycle and other relevant guidelines;
- Design research approaches and methodologies according to IMPACT's requirements and principles as well as partners' information needs;
- Compose and construct, in close coordination with GIS and data teams, qualitative and quantitative data collection tools;
- For each research cycle, prepare ToRs and ensure their validation by HQ before any data collection begins;
- Ensure relevant stakeholders and partners are engaged in research design and planning.

RESEARCH IMPLEMENTATION

- In close liaison with field officer(s), ensure that required enumerators are identified and trained for primary data collection;
- In close liaison with field officer (s), Monitor data collection, ensuring its correct implementation in line with agreed TORs;
- In close liaison with field officer (s), Manage assessment logistics, including with partner organizations, identifying assessment areas, facilitating design workshops, managing joint data collection processes, and facilitating joint analysis workshops;

- In close liaison with field officer (s), Ensure regular situation updates on data collection are produced and circulated to line manager, relevant colleagues and external counterparts. Provide support and follow up on identified challenges during the data collection process;
- Ensure that the line manager and IMPACT HQ research department are alerted to any issues that prevents full implementation of the methodology agreed in the approved TORs. Ensure that all changes to the methodology are documented throughout implementation, and that any change is formally validated by IMPACT HQ;
- Keep track of progress and delays of all assigned assessments throughout the research cycle. Ensure that delays or identified challenges for specific assessments are reported in writing and orally in a timely manner;
- In close liaison with field officer (s), Ensure logistics, financial, administration, security and HR processes directly related to ongoing and upcoming assessments are appropriately planned, implemented and coordinated with the relevant ACTED departments;
- Ensure that all collected data is stored in line with IMPACT's Data Management Guidelines and with the ToRs;
- In close liaison with field officer (s), Ensure that data is revised and cleaned, and that all revisions are recorded;
- In close liaison with data colleagues Provide data analysis on primary and/or secondary data as per ToRs, ensuring that meaningful techniques are used to analyze the data collected;
- Ensure that data and its analysis are validated by IMPACT HQ before product drafting stage;
- Ensure that data and its analysis do not contain personal information and are validated by IMPACT HQ before sharing to external parties.

DRAFTING OF RESEARCH PRODUCTS

- Ensure the drafting of timely and accurate outputs that consolidate the analyses from each research cycle into relevant products such as factsheets, reports, briefs, presentations, etc which comply with IMPACT's guidelines and quality standards;
- Ensure that products accurately reflect the information collected and that information is conveyed in a way that maximizes their impact in line with their intended use;
- Liaise with relevant GIS colleagues to ensure effective spatial representation of research findings in maps or interactive web-portals, as relevant;
- Follow the designated timeline of reports to be submitted to project partners and donors. Ensure that delays or identified challenges for specific assessments are reported in writing and orally in a timely manner;
- Maintain regular communication with country Management and IMPACT HQ on progress and deadlines for written products;
- Ensure that all written products are validated by IMPACT HQ before external release.

EXTERNAL ENGAGEMENT

- Ensure that relevant partners are consulted and involved at all stages of research cycle: assessment preparation; data collection; data analysis; review of research products; product dissemination; and lessons learnt;
- After validation by the line manager, represent IMPACT in relevant meetings/ working groups;
- Follow up on issues identified by partners or during meetings / working groups;
- Promote an active use of datasets and research findings by partners and the broader humanitarian community for their decision making;

- After validation by line manager, present research findings to relevant third parties in order to enhance their use and impact;
- Ensure that all partner engagement and all external relations are clearly documented and communicated with the line manager and relevant colleagues;
- More generally, contribute to the creation of a positive image and overall credibility of the organization, notably through the application of IMPACT's mandate, ethics, values and stand-point with regard to other actors.

KNOWLEDGE SHARING AND LEARNING PROCESSES

- In coordination with country management, support the conduct of monitoring and evaluation for each Research Cycle, as specified in the research ToRs and in line with IMPACT Guidelines;
- Generate and document robust lessons learned at the end of each Research Cycle;
- Ensure knowledge and learning processes are shared with other Units and teams within mission, and with HQ;
- When required, provide feedback to appropriate global organizational knowledge learning tools.

PROJECT CYCLE MANAGEMENT

For relevant projects, ensure compliance to project cycle management requirements and guidelines at all phases;

- Before project start, ensure the organization of a kick off meeting and the availability of key project management documentations to plan the efficient use of assets, financial and human resources;
- In close coordination with line management, finance and grants colleagues, monitor and regularly update the use of assets, financial and human resources, in full compliance with IMPACT's guidelines; this includes maintaining an oversight of budget availability and expenditure for assessment activities;
- Ensure that project deliverables and requirements are tracked, met and complied to;
- Ensure that any issue in relation to project implementation is reported to the line manager, finance and grants colleagues, and HQ;
- Ensure that a project completion meeting is held and documented for all relevant projects;
- Support the line manager, finance and grants colleagues in drafting of relevant project narrative and financial reports;
- Other tasks as requested by supervisors.

INTERNAL COORDINATION AND CAPACITY BUILDING

- Actively participate in regular team meetings;
- Ensure regular coordination and exchange with relevant colleagues;
- Engage in the development and implementation of IMPACT's strategy in Syria.
- For all activities, ensure that all assessment and field teams are comprehensively briefed on objectives, expected outputs and that the overall implementation strategy is clearly understood;
- Ensure that project/field staff are given required training and resources to achieve their tasks in line with IMPACT and project requirements;
- Be available to provide regular support and technical backstopping; regularly debrief team members to receive feedback on the progress of an activity;

- In coordination with line manager, contribute to conduct induction for new staff members, including training in basic technical competencies for research design, implementation and analysis;
- Support to the line managers and specialists in the development and implementation of capacity training plans for team members.

DATA CONFIDENTIALITY AND PROTECTION

The Assessment Officer will maintain the strictest confidentiality on all data collected and related processes, ensuring full compliance with IMPACT's data protection policy and SOPs. He/she will actively take measures to prevent the unauthorized sharing of any information and data belonging to IMPACT and its partners, or collected during his/her assignment with IMPACT.

REQUIREMENTS

OFFICER

- **Academic** Excellent academic qualifications, preferably including a Master degree in Economics, Econometrics, or other relevant discipline;
- **Research skills** Proficiency and proven experience with research methods, including both quantitative and qualitative research. Excellent analytical skills, with experience in economic development an asset
- **Software skills** Proven knowledge of the Microsoft Office Suite, to include Word, Excel, and PowerPoint. Advanced skills in R, SPSS and/or STATA or other statistical analysis software are an advantage; Experience with InDesign an asset.
- **Years of work experience** At least 1 years of relevant working experience. Experience in humanitarian settings highly desirable;
- **Communication/reporting skills** Excellent communication and drafting skills for effective reporting;
- **Multi-tasking skills** Ability to multitask with tight deadlines, on numerous research cycles;
- **Level of independence** Proven ability to work independently;
- **Cross-cultural work environment** Ability to operate in a cross-cultural environment requiring flexibility;
- **Experience in geographical region** Past experience working in Syria or the Middle East is desirable;
- **Language skills** Fluency in English required, fluency in Arabic and/or Kurdish an asset;
- **Security environment** Willing to travel to and ability to operate in a complex and challenging security environment

CONDITIONS

- Salary defined by the IMPACT salary grid; educational level, expertise, hardship, security, and performance are considered for pay bonus
- Additional monthly living allowance provided in country by IMPACT's partner ACTED

- Food and lodging provided at the organisation's guesthouse/or housing allowance (depending on contract length and country of assignment)
- Transportation costs covered, including additional return ticket + luggage allowance
- Provision of medical, life, and repatriation insurance + retirement package
