DATA OFFICER

(Reference: 23|SOM|DO01)

BACKGROUND ON IMPACT AND REACH

REACH was born in 2010 as a joint initiative of two International NGOs ([IMPACT Initiatives](#) and [ACTED](#)) and the United Nations Operational Satellite Applications Programme ([UNOSAT](#)). REACH's **purpose** is to promote and facilitate the development of information products that enhance the humanitarian community's decision making and planning capacity for emergency, reconstruction and development contexts. REACH facilitates information management for aid actors through three complementary services: (a) need and situation assessments facilitated by REACH teams; (b) situation analysis using satellite imagery; (c) provision of related database and (web)-mapping facilities and expertise.

IMPACT Initiatives is a humanitarian NGO, based in Geneva, Switzerland. The organisation manages several initiatives, including the REACH Initiative. The IMPACT team comprises specialists in data collection, management and analysis and GIS. IMPACT was launched at the initiative of ACTED, an international NGO whose headquarter is based in Paris and is present in thirty countries. The two organizations have a strong complementarity formalized in a global partnership, enabling IMPACT to benefit from ACTED's operational support on its fields of intervention.

We are currently looking for a Data Officer to support our REACH team in Somalia.

Department: REACH
Position: **Data Officer**
Contract duration: 6 months
Location: SOMALIA (MOGADISHU)
Starting Date: ASAP

COUNTRY PROFILE

Somalia has been experiencing a multi-layered, complex, and protracted crisis over the past three decades due to periodic disasters and climate-driven shocks, such as droughts and flooding. This has led to much internal displacement resulting in large IDP populations in urban areas. IMPACT began working in Somalia in 2012 in order to fill information gaps and provide timely data on the humanitarian needs of displaced and vulnerable populations. The compound and complex nature of the crisis continues to influence displacement patterns and constrain the availability of resources, while the presence of armed groups severely impedes the level of access and support provided by humanitarian actors.

In 2016 REACH was deployed in Kenya and has since then been providing information on the needs and intentions of refugees residing in the Dadaab and Kakuma refugee camps. Beyond the multi-sectoral focused work, IMPACT has become the go-to partner of the Kenya and Somali Cash Consortia, covering the post-distribution monitoring in a variety of contexts and multi-purpose cash programs

Currently, the Horn of Africa is experiencing the third drought episode in a decade, following three consecutive failed rainy seasons. The drought is compounding existing food insecurity among both pastoral and farming populations, and needs are spiking across the region – between 12 and 14 million people are currently estimated to be facing high levels of food insecurity and water shortages. Historically rare climate variability, climate change, vulnerability, and exposure are creating an exceptional and extremely concerning level of risk for food security and livelihoods, which could drive rising levels of acute malnutrition and mortality through mid-to-late 2022.

FUNCTIONS

Under the line management of the Senior Data Officer in Somalia, Data Officer is responsible for the production of IMPACT's analysis products in Somalia, including the preparation of research design, support in designing sampling methods, data analysis plans, data collection tools, data cleaning scripts and processes, analysis scripts, analysis outputs and (as relevant) production of web maps and information management systems. The Data officer will support in the dissemination and evaluation stages of the research cycle. Throughout each research cycle, the Data Officer, in close liaison with the assessment and field teams, engages with partners to promote their participation in data processing, analysis or relevant topics as designated by the line manager, to maximize the uptake and use of IMPACT research. When relevant, or managing a project, he/she also ensures an efficient and transparent use of resources required for project implementation. This can include the direct supervision of data and assessment teams during data collection, analysis or output production.

In his/her mission, the data Officer will be hosted by IMPACT's global partner ACTED and will fall under the direct responsibility and management of ACTED's Country Director and his/her delegates for all Administrative, Security, and relevant Logistics and Finance issues. S/he will therefore fully abide to ACTED's Security, Administration, and relevant HR, Logistics and Finance rules and regulations.
