BACKGROUND ON IMPACT AND REACH

REACH was born in 2010 as a joint initiative of two International NGOs (IMPACT Initiatives and ACTED) and the United Nations Operational Satellite Applications Programme (UNOSAT). REACH’s purpose is to promote and facilitate the development of information products that enhance the humanitarian community’s decision making and planning capacity for emergency, reconstruction and development contexts. REACH facilitates information management for aid actors through three complementary services: (a) need and situation assessments facilitated by REACH teams; (b) situation analysis using satellite imagery; (c) provision of related database and (web)-mapping facilities and expertise.

IMPACT Initiatives is a humanitarian NGO, based in Geneva, Switzerland. The organisation manages several initiatives, including the REACH Initiative. The IMPACT team comprises specialists in data collection, management and analysis and GIS. IMPACT was launched at the initiative of ACTED, an international NGO whose headquarter is based in Paris and is present in thirty countries. The two organizations have a strong complementarity formalized in a global partnership, enabling IMPACT to benefit from ACTED’s operational support on its fields of intervention.

We are currently looking for an Program Operations Manager to support our team in Syria.

Department: REACH
Position: Program Operations Manager
Contract duration: 12 months
Location: Hasakeh, Syria
Starting Date: ASAP

COUNTRY PROFILE

After more than a decade of conflict, conditions in Syria remain volatile and marked by violence and socioeconomic deterioration. The scale, complexity, and severity of humanitarian needs in Syria extends the necessity for up to date, timely, and accurate information. Evidence-based planning and programming remains paramount to ensure that the response adequately meets the needs of the most vulnerable people and is tailored to different realities across communities and over time. REACH has been conducting assessments on the humanitarian situation in Syria since 2013 and has since grown significantly as an actor in the response.

Broadly speaking, REACH Syria facilitates a humanitarian evidence base via four key research streams:

• Monitoring of the humanitarian situation in Syria, including joint market monitoring to track prices of goods as per the survival minimum expenditure basket (SMEB);
• Displacement tracking, through tracking the movement of IDPs and returnees;
• Remote sensing activities, including market functionality, flood hazard assessments, etc;
• Technical support to clusters, including thematic assessments and capacity building
POSITION PROFILE

Under the management of the Country Coordinator, the Program Operations Manager oversees field team operations across two bases in Northeast Syria (Amuda/Hasakah and Raqqa). The Program Operations Manager creates and maintains an operational setup that allows the programmes team to achieve program excellence and ensure the highest level of impact and accountability, while also complying to IMPACT’s guidelines and standards.

As part of the REACH Senior Management Team, she/he contributes to the development and implementation of mission strategy, in addition to promoting organizational vision, and cores values across the mission.

In his/her mission, the Program Operations Manager will be hosted by ACTED and will fall under the responsibility and management of ACTED’s Country Director for Administrative, Security, Logistics, HR and Finance issues.
