COUNTRY PROFILE

Iraq

Following years of displacement and conflict which precipitated the substantial engagement of humanitarian actors in-country, the Iraq context is increasingly transitioning to a post-conflict development phase. While reconstruction and development initiatives are underway – with significant international support – populations in Iraq continue to face problems stemming from widespread infrastructural damage, reduced access to public services, and

economic decline. Humanitarian needs also remain; in 2022, it was estimated that at least 2.5 million internally displaced persons (IDPs) and returnees in Iraq required humanitarian assistance, with the residual impact of past conflict and increasing climatic shocks further intensifying these needs. In addition, 1.2 million IDPs and 4.9 million returnees face hurdles in achieving durable solutions to their displacement, including security concerns, lack of access to livelihoods, destroyed or damaged housing, and lack of social cohesion.

Over more than 10 years in Iraq, IMPACT has led country-wide multi-sectoral assessments, informed needs-based targeting mechanisms for multi-purpose cash assistance, extended technical support to CCCM and WASH partners, encouraged evidence-based approaches to durable solutions, served as a third-party monitoring partner to implementing agencies, and conducted thematic assessments and rapid needs assessments in response to contextual changes. More information can be found [here](#).

YEMEN (operated from Amman, Jordan)

IMPACT has supported the humanitarian response to the Yemen crisis since late 2016, working extensively with the Water, Sanitation and Hygiene (WASH) Cluster, the Camp Coordination and Camp Management (CCCM) Cluster, the Cash and Markets Working Group (CMWG) and the Shelter Cluster.

The REACH team, based remotely in Amman, provides systemic assessment and Information Management (IM) support to the response through indicator review, tool design, coordination of data collection exercises, data analysis, output production, and IM platform design. Given the challenging context in Yemen, REACH is constantly working to find new and innovative ways to effectively inform the humanitarian response.

The IMPACT Yemen team is working proactively to increase its portfolio of donors and sectors of operations and is aiming to restart a permanent presence inside of Yemen in 2024.
